

How to download the Panopto Recorder

Before using Panopto you will need to download the Panopto recorder.

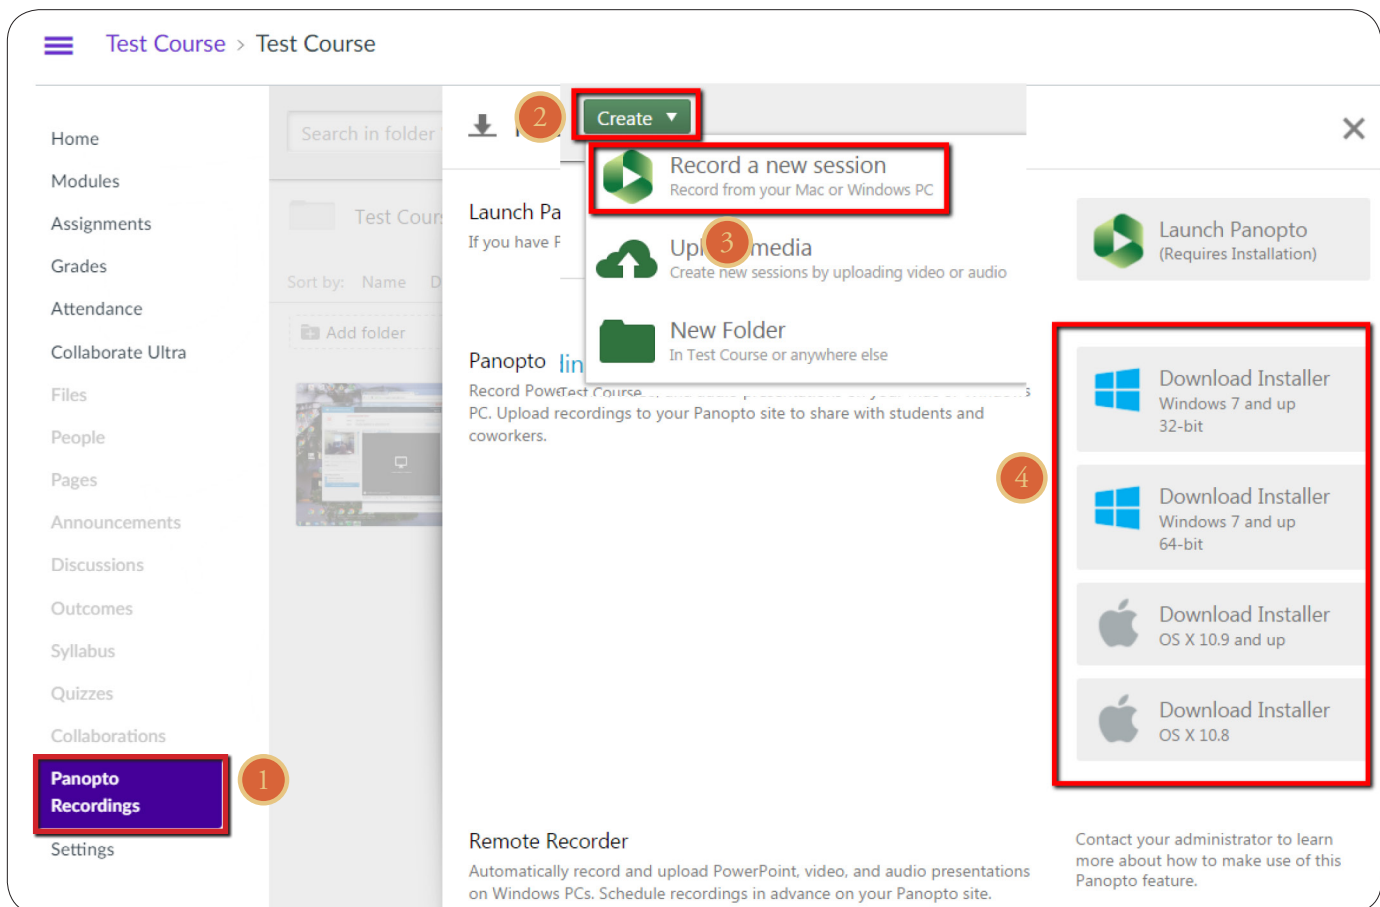

Note: DO NOT use web search tools like Google to locate this application. Use only this version that is provided within Canvas.

To download the recorder:

Login to Canvas and enter your course:

- [1] Click on Panopto Recordings on the left of your course
- [2] Click on the Create button on the top, then Record a new session
- [3] Click on Download Installer - select the appropriate option for your computer
- [4] Open the install file and follow the steps to complete the installation

The screenshot shows the Canvas interface for a course titled "Test Course". On the left sidebar, the "Panopto Recordings" option is highlighted with a red box and a circled "1". In the main content area, the "Create" button is highlighted with a red box and a circled "2". A dropdown menu is open, showing three options: "Record a new session" (highlighted with a red box and a circled "3"), "Upload media", and "New Folder". Below the dropdown, there are four "Download Installer" buttons for Windows 7 and up (32-bit and 64-bit) and OS X 10.9 and up (highlighted with a red box and a circled "4").
