**Student Comments on Library Hours**

24 hour service
- If the library was 24 hrs because I despise getting interrupted in the middle of working only to hear the library is closing.
- 24 hour access for students with Graduate IDs because there is also 24 hour access to cadaver lab. Library access would be helpful as well.
- 24 Hours open on finals week
- A floor that is open 24 hours.

Another floor in the library should be kept open until the library closes. Almost every time I study late I am interrupted around 11:30pm so that the 4th floor can be closed. Space is limited on the first floor and it is loud, as a result I leave the library and stop studying though I wish I could have studied more.
- Extend the library office hour
- Extended hours on the floors above the first.

Extended hours throughout the school year, not just during midterms and finals - this is important because for busy college students, getting kicked out of a certain floor of the library at 11pm is very disruptive, as the first floor can be very loud. Some nights, even 1am is too early for the library to close.
- Extending hours. As a graduate student, I feel as though additional hours would help make the library more accessible for studying.
- Have more convenient hours (not just during midterms/finals) or have key holders trained more appropriately. There were times when I came to school and the doors were not open yet

I believe opening up more floors in the evening, because the 1st floor tends to become very crowded.
- I believe that the library should be open 24 hours. As a science major, the labs I am in and the labs that I must TA do not end until 930 or 10 pm and I do not find it fair that the library closes at 1am. The worst is during finals week because I commute an hour and would like to spend longer in the library or have the library stay open overnight certain times during the week. This would not only benefit myself, but also all the other science majors who use the library daily.
- I feel that the library should have extended hours. For example, should open by 7am during weekdays and should stay open later on Saturday night till 10 or 11pm. I am a medical student and I rely on the library as my main place to study.
- I HOPE THE LIBRARY WOULD OPEN EARLIER ON SUN AND UNTILE LATER ON SAT
- I like the library overall. Very comfortable environment to study but you should extent the hour on Friday and Saturday night. I would use the library if its open
- I love going to the library and I just wish sometimes it could stay open until 2am because its just a get away to study and be in peace and quiet.
- I suggest to extend the office hours in the weekends for Fall and Spring Semesters. Also, I suggest to extend the office hours in the summer semester.
- I tend to work better or concentrate late at night. So when I have something to do in weekend especially on Friday and Saturday, when the library closes earlier than the usual, I have to do work in house. I can concentrate more when I am in the library than in my house
- I wish it was open more hours.
- I wish that the library opened up earlier though, it would be useful for when I may need to print something before class (which starts at 8am). Opening earlier would also give me a nice place to study and catch up on my 8am classes before they begin, and possibly grab a coffee!
- I would like to have extended hours in the study rooms.
I would like to have more hours especially during midterms and finals week. 
I would love if the library stayed open later, or was 24 hours! I work during the day and then have classes at night, and would love to be able to stay for longer. 
If it was open later along with the cafe. 
If the library was open for longer hours I would love to stay longer or at least go home at a regular hour to get enough sleep to some back to campus very early so that I can work on my homework with more hours of sleep on me. 
If the library was open later on Saturdays 
Increase hours on saturday 
Increase the hours of the library during the weekend. 
Keep another floor open, other than the first, until the library closes! 
Later hours during mid-term & final exams. 
Later hours on Saturday 
Later hours, for the Cafe®, print room, and upper floors. 
Longer hours 
longer hours 
longer open hours on weekends 
More hours 
More hours on Saturdays 
more time, I mean should at least have one floor open 24 hours same other 
not close 2nd floor even after 10 or 11 
Open later. 
open longer time 
open more on Friday and saturday 
Please close the upper floors at a later time. When I go to the library to study for long periods of time, it is difficult when I have to switch to the first floor where it is loud. It's not fair that I can only study in quiet until a certain time. 
Please leave the 4th floor available until the library closes at night for those who need quietness please please... 
Saturday hours be extended 1PM to 1AM and sunday hours become 1pm to 5pm 
specific individual comforters for easy and comfortable studying. And the library should be open 24 hours daily. 
The hours on the weekend are too limited. 
The library being open! 

The library should be open 24/7 like other schools. Even if we don't use it to study we can use it to distress. 
The library should be open for 24 hours during finals week since the dorms are very disruptive with students drinking and partying. 
The library should be open more hours especially during midterms and finals.
The upper floors make for sublime and perfect study sessions for individuals and small groups (2-3 people). In addition, those who would likely be drawn to those floors at such hours are certainly the least likely to cause any kind of problems in the building. I'm sure it has something to do with there only being one security guard on library duty after a certain hour, but surely there must be one other person who could come in and herd people down to the first floor around a half hour to closing time. It may seem insignificant but an hour in the library could undoubtedly mean the world to many students pursuing many different endeavors. The library is great, I practically live there and the staff is sensational, but if I had to choose one thing to improve, the limited hours of pristine and flawlessly conducive study time available exclusively on of the upper floors of the library would certainly be the first (and perhaps the only) problem to come to mind.
